Experience

Design Lead

Sept 2019 - Present

UCSD Association for Computing Machinery
Creating guidelines for the branding and content of UCSD's chapter of ACM, and collaborating with the Development team on ACM's original component library.

Graphic Designer

Dec 2018 - Present

UCSD's The MQ, Literary Tinge
Creating graphics for periodicals and clubs at UCSD, like The MQ and Literary Tinge, among others.

ThoughtSTEM

Jun 2017 - Aug 2017

Taught courses in programming to classes of local students in Chula Vista, presenting fun and engaging lessons on the basics of coding.

Projects

SPACE

Jun. 2019

UCSD Association for Computing Machinery
Designed and help develop a visual identity and website for SPACE, ACM UCSD's first startup career fair, to connect visiting recruiters with UCSD's engineering students.

Raccoon.io

Oct. 2018

SDHacks
Designed and developed a web application using Node.js, Google Firebase, and OpenStreetMap to bring hungry UCSD students the latest info on school events with free food.

Involvement at UCSD

Association for Computing Machinery at UCSD

Creating graphics, branding content, and staffing workshops at UCSD's largest engineering organization, with 800+ students and counting.

Graphic Designer and Web Editor

Creating logos, graphics, and website designs for magazines and periodicals at UCSD like The MQ and Other People Literary Magazine, as well as student organizations like Groundwork Books and oSTEM.
